

Over 80 medical grade materials in-house including class 6 materials, and a dedicated materials manager. *Our knowledge will significantly reduce or eliminate the trial and error period needed to determine the right polymer for your application.*

Bio-absorbable

- PLA

Bio-compatible materials

- Kraton
- Urethane
- C-flex
- Teco-Flex
- Santoprene
- Silicone

Engineered Plastic:

- Silicone
- PEEK
- Polysulfate
- ULTEM

Olefins

- Polyethylene
- Polypropylene
- Polymethylpentene

Polycarbonate

Polyimide / nylon

Acrylic

Styrene

Polysulfone

PVC – Rigid and Flexible

ABS

Filled

- Glass
- Metal
- Carbon
- Conductive
